The following amendment has been made to update the continuity data in the specification.

### ***Allowable Subject Matter***

3. Claims 1-25 are allowed. The following is an examiner's statement of reasons for allowance: Applicant has filed a proper and timely terminal disclaimer thereby overcoming the obvious-type double patenting rejection over U.S. 6,712,744.

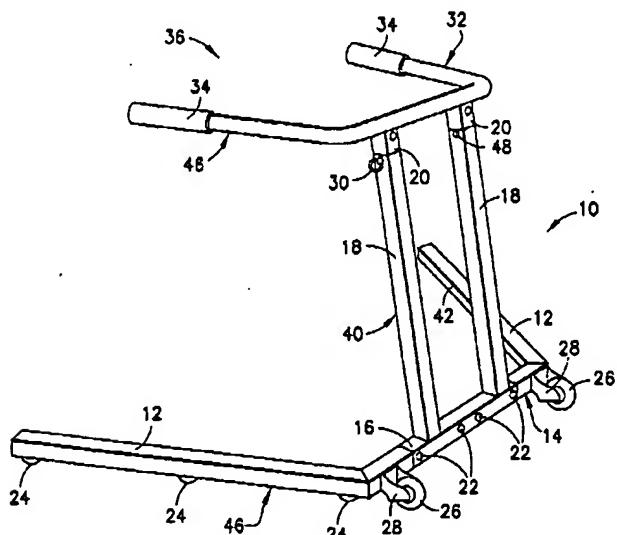

5. Barker (U.S. 4,251,105) teaches another example of a walker including a U-shaped handle portion, a U-shaped base frame and telescoping members between the handle portion and base frame. Barker also fails to teach the first and second arm of the handle frame being cantilevered from the base frame, and further fails to teach the side members of the base frame extending radially outwardly such that the planar configuration of the base frame is greater than the planar configuration of the handle frame in order to accommodate a user in a wheelchair (Remarks p. 2 lines 4-8.)

6. Darrach (U.S. 130,283) teaches a walker having a U-shaped handle portion and a base frame with side members extending radially outwardly. Darrach fails to teach the first and second arm of the handle frame being cantilevered from the base frame in order to accommodate a user in a wheelchair (Remarks p. 2 lines 4-8.)

7. The prior art fails to teach the device as shown

including a U-shaped handle

section, a U-shaped base frame having side arms extending radially outwardly in order to accommodate a user in a wheelchair, wherein the arms of the U-shaped handle are cantilevered from the base frame in order to prevent interference with a user.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
